U.S. Hints at Harder Line on Syria Before Meeting in Paris

The Obama administration has left the prospect of strikes on Syrian military targets off the table for now, but officials say it wouldn't rule out such action if Syrian President Bashar al-Assad violates the agreement to remove his chemical weapons. Page A4

Iran Revolutions Defined Shooting Stars, Not Its Leaders, Analysis Says

Struggles for power in Iranian cities and regions produced a wide and diverse variety of left-wing and Islamist groups, which ultimately overwhelmed the secular, pro-Western forces that had led the revolution.

In the 9/11 Billion Videogame Industry, Hitting People Is a Last Resort

An emerging strategy game, Syndicate, is the industry's first to allow players to kill people in the life-like settings of the future. A basic control of fire-breathing weapons, such as a flamethrower, is not blocked and is encouraged. The majority of players, however, are using the game for changing the world of work.
